

**LVVWD's on-line water waste form  
helps community conserve our most precious natural resource**

Reporting water waste in the community just got a little easier, faster, and more accurate with the recent launch of the Las Vegas Valley Water District's (LVVWD) on-line water-waste reporting form available at [lvvwd.com](http://lvvwd.com).

With the form, customers can upload photos of water waste, use their phone's GPS/location services to pinpoint the area, choose from various infraction/violation types, and receive a "thank you" email with details on the investigation process.

Customers can access the form from a computer, tablet or smartphone. Those customers without access to a smartphone or a computer may call **702-822-8571** to report water waste in the district's service area.

"Conservation is at the forefront of our community outreach. That means water-waste reporting is a top priority," said LVVWD General Manager John Entsminger. "The images and geolocation functions of this new online reporting form are tremendous assets; getting an exact location saves our investigators time and makes investigations more precise."

The form enables customers to report water waste in the LVVWD's service area, which includes metropolitan Las Vegas and areas of unincorporated Clark County.

The City of Henderson includes a similar water-waste reporting function in its city services app, and water waste within the city of North Las Vegas can be reported at [cityofnorthlasvegas.com](http://cityofnorthlasvegas.com).

The LVVWD defines water waste when any of the following occur:

- Water flows or sprays off your property;
- Watering outside your assigned watering days;
- Watering between 11 a.m. and 7 p.m. May 1 through Aug. 31 (during mandatory summer seasonal watering restrictions);
- A known malfunctioning device or supply line is allowed to operate for more than 48 hours;
- Swimming pool or spa water is discharged off a property where public sanitary sewer is available;
- Failure to follow regulations related to washing vehicles, equipment, driveways, parking lots, sidewalks, streets or other surfaces or objects; and

As a reminder, mandatory winter seasonal watering restrictions—which limit landscape irrigation to **one day per week** for each property's assigned watering group—are in effect through Feb. 28. To find your address's watering group, visit [changeyourclock.com](http://changeyourclock.com).

**Springs Preserve to celebrate Black History Month Festival, Feb. 16**

Celebrate the many contributions of African-Americans to the Southern Nevada community as the Springs Preserve presents its 10<sup>th</sup> annual Black History Month Festival, Saturday, Feb. 16, from 10 a.m. to 4 p.m.

This popular family-friendly event will feature live music and captivating dance performances, great food from local restaurants, and cultural art and photo exhibits. Kids and grown-ups alike can take part in arts and crafts activities, carnival games, face-painting, and much more.

The Springs Preserve Black History Month Festival is presented through the generosity of Southwest Medical Associates and AT&T. For more information about this and other signature cultural events held throughout the year, visit [\*\*springspreserve.org\*\*](http://springspreserve.org).
